PROFESSIONAL SUMMARY

BIM Modeller Architecture/Interior Designer with 4.5+ years of experience delivering residential, commercial and mixed-use projects across the UAE, Saudi Arabia, Qatar, and Bahrain. Proven expertise in multidisciplinary BIM coordination involving Architectural, Structural, MEP, and Facade disciplines, with strong focus on clash detection, design coordination, and model quality assurance using Revit, Navisworks Manage, and Autodesk Construction Cloud (BIM 360). Skilled in managing coordination workflows, conducting clash review meetings, tracking RFIs, and ensuring compliance with BIM Execution Plans (BEP) and project standards. Experienced in developing and coordinating BIM models from LOD 100–500, supporting construction documentation, as-built deliverables, and COBie data management. Recognized for delivering clash-free, high-quality BIM solutions that improve project efficiency, coordination, and on-time project delivery.

PROFESSIONAL EXPERIENCE

PNC Architects, United Arab Emirates

BIM Modeller – ARCH/ID

Dec 2025 - Present

Projects Worked: *Sea Haven (Tower-A, Tower-B, Tower-C -Dubai) / Qiddiya HQ- Riyadh, Saudi Arabia/ Nawayef Souq (Cluster Building- Abudhabi) / Aldar Manarat-Phase2 (G+12- Abudhabi) / Common Bank Of Australia (CBA) / Red Sea Global- Bahrain / Qatar Media Project- AM, FM, QTV Building*

- Led BIM coordination for 7 projects (Sea Haven Towers, Qiddiya HQ, Aldar Manarat Phase-2, etc.) across UAE, KSA, Bahrain, Qatar.
- Performed multidisciplinary model federation and clash detection using Navisworks Manage, identifying and resolving coordination issues throughout project lifecycles.
- Coordinated closely with consultants, design teams, and project stakeholders to achieve clash-free and constructible BIM deliverables.
- Prepared and reviewed Architectural BIM models, GA plans, RCP layouts, sections, elevations, schedules, and detailed drawing packages for project submissions.
- Generated clash reports, tracked issue resolution, and monitored coordination progress through BIM 360 and project collaboration platforms.
- Conducted model audits and quality reviews to ensure compliance with BIM Execution Plans (BEP), project standards, and client requirements.
- Facilitated coordination meetings by presenting clash analysis, discussing design conflicts, and supporting resolution workflows across disciplines.
- Managed model updates, consultant comments, and design revisions while maintaining model integrity and documentation accuracy.
- Coordinated shop drawing production and developed as-built BIM models reflecting approved design changes and site conditions.
- Reduced design rework by identifying 150+clashes per project cycle across 7 multidisciplinary projects.

Infinevod Delivering BIM Excellence (Trichy), India

BIM Modeller – ARCH/ID

Feb 2022- Dec 2025

- Maintained BIM 360 workflows for document management, model sharing, issue tracking, and collaboration.
- Ensured timely delivery of coordinated BIM models and construction documentation in accordance with project schedules.
- Created and managed Revit sheets, view templates, schedules, annotations, and documentation deliverables.
- Generated and managed Rfi's to address missing details in IFC drawings and production workflows.
- Supported the preparation and submission of COBie deliverables, ensuring compliance with BIM standards, EIR, and client information requirements.

EDUCATION

B.E. (Civil Engineering)

Anna University, India – May 2021

CORE COMPETENCIES

- Integrated design delivery & multidisciplinary coordination
- Project programme planning and resource allocation
- Stakeholder engagement & client communications
- Design review & quality assurance
- RFI Management
- BIM coordination & clash detection (Navisworks)
- AutoCAD, Revit, MS Project
- COBie Data Management
- Risk tracking & reporting
